

**VOLUNTARY REMEDIATION PROGRAM
DEPARTMENT OF ENVIRONMENTAL MANAGEMENT**

PROJECT SUMMARY

Site Name:	Jasper Wood Products Company, Inc.
Applicant's Name:	Jasper Wood Products Company, Inc.
Site Location:	500 East 13 th Street Jasper DuBois County
VRP Site Number:	6970601
Project Manager:	Andrea Robertson
Date Application Received:	June, 1997
Date Project Completed:	January, 1999
Project Duration:	1 year, 7 months
Contaminant Group(s):	Volatile Organic Compounds (VOCs), Polyaromatic Hydrocarbons (PAHs)
Media Cleaned Up:	Surface Soil, Subsurface Soil
Cleanup Goals Achieved:	Tier II Nonresidential
Deed/Land Use Restrictions:	Nonresidential

Project Description: Jasper Wood Products Company, Inc., produces wood-veneered furniture components using particle board cores, resins and veneer flitches.

Hydraulic oil contamination was discovered outside the facility along the exterior wall. A leaking travel head jointer sprayed oil that migrated to the outside of the facility.

Remediation involved removing contaminated subsurface soil. Approximately 212 cubic yards of soil was removed and disposed in a landfill. Following the removal of the soil, the excavation was backfilled using clean sand and stone.

Soil samples collected from the area determined that conditions at the site met levels protective of human health and the environment for PAHs and benzene, toluene, ethylbenzene, and total xylene (BTEX).
